- Stakeholder engagement: Advanced
- Quantitative research: Advanced
- Python: Intermediate

Hesam Sakian

XR, Game and Creative Solutions

EXPERIENCE

Sep 2021 — Present

Technical Director, SmartReality LLC | Muscat, Oman

- In my role as Technical Lead at Smart Reality LLC, I shape the company's technical strategy for XR and video game development, ensuring every innovation aligns with emerging industry trends. I lead a high-performing team across programming, game engine integration, and immersive experiences design, accelerating delivery timelines and elevating production quality. These efforts have played a pivotal role in positioning Smart Reality as a pioneer in immersive technology solutions.

Sep 2019 — Jun 2025

University Lecturer, Tabriz Art University | Tabriz, Iran

- I designed and delivered curricula focused on programming, XR, and game development, fostering critical thinking, strong subject mastery, and high student engagement. I conducted and published original research to contribute to academic knowledge, while mentoring students in their academic and career development. I also collaborated with colleagues to update course content and integrate emerging trends, ensuring the curriculum remained relevant and research-driven.

Feb 2021 — Sep 2024

IT Manager, Tabriz Art University | Tabriz, Iran

- As an IT Manager at the university, I oversaw the planning, deployment, and maintenance of campus-wide IT systems, ensuring reliable and secure digital infrastructure for academic and administrative needs. I led technical teams, supported teaching and research technologies, and coordinated with faculty and staff to implement solutions that enhanced learning, operations, and innovation across the institution.

EDUCATION

Feb 2017 - Feb 2019

MA, Computer Arts - Game and Interactive Media Design, Tabriz Art University | Tabriz, Iran

Sep 2012 - Sep 2016

BA, Multimedia - Virtual Reality, Tabriz Art University | Tabriz, Iran
